YOU SAVE TIME ON LONG DISTANCE CALLS

When You CALL BY NUMBER

Ask for Booklet for Recording Out-of-Town Numbers

When you give the Long Distance operator the out-of-town number, she doesn't have to consult "Information" in the distant city and your call goes through faster.

To help you call by number we offer:

TO ALL TELEPHONE USERS—A handy, pocket-size booklet for recording numbers you call frequently.

TO EXTENSIVE USERS OF LONG DISTANCE—A special Long Distance directory listing the names and telephone numbers of out-of-town people or firms you call frequently.

Just call or write the Business Office.

Save Time On Local Calls—Refer to the Directory

Calling from memory often results in wrong numbers. To save time and avoid inconvenience to you and the person called in error, be sure you have the right number. Please call "Information" only for numbers not listed in the directory or your personal list of numbers called frequently. If you call "Information" without first looking up the number, chances are you'll be making two calls when one would do. When a new directory is issued, please correct your list of frequently called numbers.

Long Distance rates and information concerning initial period and overtime rates may be obtained by calling Long Distance. Night and Sunday rates apply from 6 P. M. to 4:30 A. M. and all day Sunday.

Good telephone service depends
to a large degree upon the team-
work of telephone men and women
all along the line. Linemen, in-
stallers, operators, engineers, serv-
ice representatives—all work with
one purpose in mind—to give you
the finest telephone service in the
world at the lowest cost consistent
with financial safety.
